

QUALITY ASSURANCE POLICY SCHEDULE

It is the policy and aim of East Kirkby Engineering Company Limited to provide building engineering services design, installation and commissioning serving buildings and industrial plants which are fit for their purpose, conforming to specification, delivered to a quality standard, in an agreed period.

EKE is totally committed to encourage continual improvement of our quality performance and to achieve quality objectives that are capable of meeting specified requirements and reasonable expectations of our customers.

Our performance standard is for full conformance to contractual and regulatory requirements.

EKE has a quality system in place within the company in order to achieve Safe Methods of Working, High Standards of Workmanship and Provision of Support to the Client. The quality system describes managerial responsibilities and operating procedures to meet requirements based on Quality Standard ISO9001:2000.

All management and members of staff of EKE will ensure that the quality system is implemented, maintained and understood to provide assurance of quality required by customers.

All personnel are given adequate training to be able to carry out their duties safely, effectively and efficiently.
