Introduction

East Kirkby Engineering Company Limited wish to be a highly respected company in the industry, and that is dependent upon how we behave. It is also our policy to comply with the law.

It is a criminal offence to offer, request or accept a bribe. It is too an offence for a commercial organisation to fail to prevent an incident of bribery being committed either by the company or by someone associated with it in order to obtain or retain a business advantage.

This means that bribery and corruption have absolutely no place at East Kirkby Engineering Co Ltd – and why we operate a strict no tolerance policy towards bribery in all its forms whether directly or through third parties.

This anti-bribery and corruption policy applies to all staff, suppliers, manufacturers, subcontractors who supply services to us including agents.

Legislation

The Bribery Act 2010 (the 'Act') reformed the criminal law providing a new, modern and comprehensive scheme of bribery offences that enable courts and prosecutors to respond more effectively to bribery at home or abroad.

Key elements of the Act:

1. two general criminal offences which cover the offering, promising or giving of an advantage, and requesting, agreeing to receive or accepting of an advantage
2. an offence of failure by a commercial organisation to prevent a bribe being paid for or on its behalf
3. You can find out more via <https://www.gov.uk/government/publications/bribery-act-2010-guidance>.
